Subject: Willowbrook Development

Mr Nickel

I live on the corner of Purple Sage and Blessinger. I am writing in opposition to the proposed Willowbrook Development. The existing road system is inadequate for the present demands based on traffic volume and the speed at which vehicles pass through the neighborhood. Adding the enormous increase due to the proposed development would make a bad situation only worse. I realize they plan adequate infrastructure within the development. It is the surrounding road system that is inadequate and will be a huge expense to community as a whole to remedy.

This area has not matured and developed to the point where this addition makes sense. It will be a hazard to existing residents and a major financial burden to the city of Star playing catch up in order to provide supporting infrastructure and services
