Subject: WillowBrooke development annexation

Hello,

I'm writing to voice my concern regarding the willowbrooke development and the affect it will have on our city.

1. Our infrastructure is not equipped to handle this housing density as proposed. From roads to emergency services to water. We do not have what is needed for this large of a build.
2. It will completely change the beauty of that area and the properties currently existing there.
3. WillowBrooke's application is poorly done and does not adequately address the concerns that accompany a building venture this large.
4. We need to start preserving the natural beauty of Star before it's gone. I understand we can't stop some sort of housing project there, but requiring one that matches the existing properties there will be a step in the right direction for the future of Star.

Please do not approve Willowbrookes current application.

Sincerely
Lindsey moore
